Bio

Enzo is an innovative, dedicated and driven, senior digital leader with over 12 years industry experience in Digital, Technology, Transformation, Engineering, PropTech and FinTech.

Experience

Viewer / Chief Technology Officer

NOV 2019 - PRESENT, NEWBURY, UK

- Leading the technology team of a **PropTech** platform in the AWS cloud, providing property viewings as a service.
- Established and developed an in-house technical team, which successfully rebuilt the entire web platform from the ground up, in addition to designing and launching two mobile applications for Android and iOS platforms with major focus on process automation and UX.
- Developing the Tech Strategy to ensure the future success of Viewer.

EquipmentConnect (now Equipal.co) / CTO & Co-founder

OCT 2017 - AUG 2019, LONDON, UK

- Leading the development of a **Fintech** platform in the AWS cloud, where SMEs can raise funding for desired equipment within 24 hrs. The agreements are signed electronically.
- Integrating the platform with our own instance of a Quorum Blockchain (Ethereum fork by J.P.Morgan), as part of a Innovate UK sponsored project.

Maersk / IT Service Delivery Manager

APR 2012 - SEP 2017, COPENHAGEN, DK

Covered multiple positions in Maersk Drilling and Maersk Oil.

- Responsible for SAP Support and Development of Maersk Drilling (3000+ internal users) including SAP PM, MM, BW, HR and SAP Mobility Solution;
- Responsible for managing the SAP dev & support team of 11 people;
- Successful project management and Application Management of the implementation of electronic 'Permit to Work' system from eVision for the offshore fleet; a major implementation for Maersk Oil at the time.

Education

Aalborg University / MSc in Information Technology

SEP 2011 - JUN 2013, ESBJERG, DK

Dissertation topic: 'Design & Development of a Location Based Search Algorithm'

University of Bologna / BSc Electronics Engineering

SEP 2006 - JUL 2010, BOLOGNA, IT

Dissertation topic: 'Calibration of wave scattering model across walls'
